

WORLD ENVIRONMENT DAY CAMP for Cub Scouts

When: Saturday, October 2, 2021

Opting for caution this Fall, there is no overnight camping this year. Instead, it's a day-only event where packs come self-contained for lunch and snacks. Eight activities will teach key parts of the World Environment Award and propel youth into further activities to complete in their community. A day camp planned with environmental issues in mind costs \$30 including a crest.
